Missouri Weekly Hay Summary - Week ending 03/02/2018

What a difference a couple of weeks can make! When all was said and done last week some areas in south central and south eastern parts of Missouri received 5-7 inches of rain causing flooding and a lot of mud. It can officially be stated the drought is over for most of the state. There is still 16 percent which is listed in moderate drought with 74 still abnormally dry but none of the state is currently listed as severe or extreme status. Warmer temperatures and some moisture has shades of green starting to be visible which is quite welcome as many are seeing their hay supplies disappearing after the long feeding season. Hay movement is light to moderate. Hay supplies are light to moderate, demand is moderate and prices are steady to firm. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-250.00

Small squares 6.50-8.00 per bale
